RM11,541.63

Hospitalization Cash Benefit (if any) :

RM900.00

Member's Testimonial

“Swift, accuracy and convenience all in one card are best to describe services that provided by MXM.”

Among the factors would be the convenience in terms of admittance and claims, peace of mind knowing that i would be in good hands and best care from private practices, cost efficiency as the monthly payments are affordable and privacy when admitted as the amount insured, covers private rooms. The benefit that i like most about this Healthcare Membership is that allows me to earn my own healthcare instead of paying it every month.

I was experiencing stomach aches on the right side of my stomach and on top of that I also vomited several times before i finally decided to take a day off from the kitchen and visited a nearby clinic. I guess bad luck came in the bulk for me as i lost my handphone while i nearly pass out in the locker room and accidentally left my wallet that contained my ID's in a cab from my trip to the clinic where i was told i may have appendicitis and would require an operation. Lucky for me i took my MXM card out at the clinic and placed it in my pocket instead of my wallet. So armed with merely my insurance card and my student ID that i picked up from home, i went to KPJ specialist (after my unfortunate visit to SDMC where the doctor single handedly denied my admission and merely prescribed me with urine infection) the doctor explained to me of the procedure and i was sent to the admission office to check in.

In about an hour (due to the unavailability of rooms) i was sent off to rest in a two bedded ward (again due to the unavailability of single rooms) right next to my grandmother who was also admitted for the very same reason. In a few more hours I was sent to the Operation Theatre and the surgery took place. My family was there beside me the moment i regained consciousness. The hospital took good care of me aside from the late services when required. 5 days later I was back on my feet and driven myself home all by myself. Swift, accuracy and convenience all in one card are best to describe services that provided by MXM. What more could ones ask for in times of great need?

Easing the burden and hassle of members!

NAMA AHLI : NORIZAM OTHMAN

Jumlah Perbelanjaan Hospital (jika ada) :

RM 4,049.80

Faedah Tuna Penghospitalan (jika ada) :

RM 1,000.00

Testimoni Ahli

“Antara faedah yang saya sukalah pakej VVIP di semua hospital pakar dan premium yang rendah juga ianya mampu dimiliki oleh semua golongan.”

Faktor-faktor yang menyebabkan saya memilih Program Kesihatan Keahlian MXM ini adalah kerana perlindungan maksima dan peluang perniagaan yang boleh dikongsi oleh semua.

Banyak faedah-faedah yang ditawarkan oleh MXM apabila seseorang memilikinya. Antara faedah yang saya sukalah ialah pakej VVIP di semua hospital pakar dan premium yang rendah juga ianya mampu dimiliki oleh semua golongan. Antara lain proses masuk dan keluar hospital yang mudah. Saya dan keluarga telah mendapat program keahlian ini secara percuma sepanjang hayat.

Ini adalah kali kedua saya dimasukkan ke pusat perubatan pakar menggunakan kad keahlian MXM. Saya mengalami batuk yang teruk selama 2 minggu tanpa henti, walaupun telah mendapat rawatan di klinik luar tetapi masih tiada kurang. Saya berjumpa doktor di klinik luar sekali lagi dan saya dinasihatkan untuk mendapat rawatan lanjut kerana dikhuatiri mendapat jangkitan paru-paru berair. Proses kemasukan hospital juga terlalu mudah kerana tiada wang deposit yang diperlukan mungkin kerana saya pernah dimasukkan ke hospital yang sama dan proses kemasukan wad hanya mengambil masa kira-kira 15 minit sahaja. Proses keluar hospital juga mudah kerana semua dilakukan sewaktu saya didalam bilik wad jadi tidak perlu menunggu di kaunter bayaran.

Kad keahlian kesihatan MXM sangat hebat kerana ianya sangat mudah digunakan. Boleh digunakan untuk 1001 macam penyakit. Ianya boleh digunakan di hampir semua hospital pakar di Malaysia. Tambahan pula pemeriksaan kesihatan setiap tahun percuma dari Pathlab yang tiada dari mana-mana syarikat lain. Yang paling hebat ianya boleh dipercumakan hanya dengan memperkenalkan kepada rakan2 dan saudara mara.

Easing the burden and hassle of members!
